A3-REPORT
SFM PROBLEM SOLVING 11-1

Problem-solving sheet on the topic:

Responsible:

Triggered by:

Date:

Target: (What is the standard?)

Actual (What is found?)

Objective: (What is to be achieved by practical problem solving?)

1.) Problem description

Problem description: (Value and solution free, only observable)

4.) Immediate action:

Measure

Who?

Until?

Status

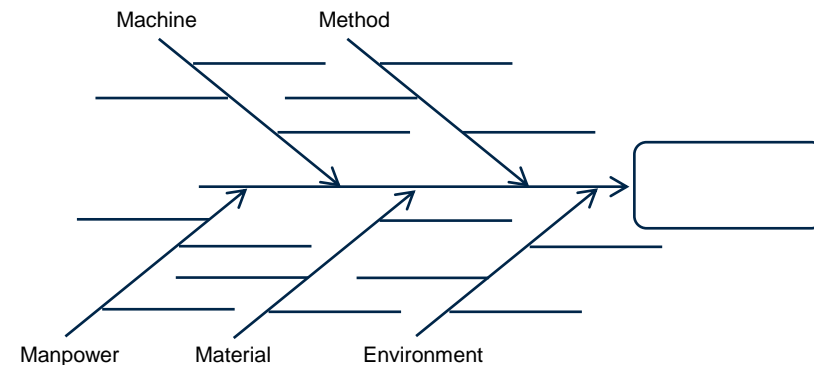

1)
2)
3)

Defect 1: (Differentiate defects)

Identify causes: (What can be changed to avoid emergence at the main point of origin?)

Defect 2: (Differentiate defects)

Defect 3: (Differentiate defects)

2.) Process containment

Background of the problem: (Describe the environment of the causes)

Material used:

Tools/Auxiliaries:

Machine:

Orders:

Workplace:

5.) Experiments to eliminate the cause

Cause

Measure (What?)

Who?

Until?

Status

1.
2.
1.
2.
1.
2.

3.) Places of origin

1.
2.
3.
4.
5.
6.
7.

6.) Standardize

Standard adjusted:

7.) Check effect

Observe process:

Sustainability given:

Yes No Yes No Yes No Yes No
